Upgrading LDN implementation through Recarbonization of Soils (RECSOIL)

Agenda

13-Nov 13:00 to 15:00
Conference room: MET - 10

South-South Knowledge Exchange to achieve Land Degradation Neutrality (LDN)

United Nations
Convention to Combat
Desertification

CRIC 21
Samarkand, Uzbekistan
2023

Agenda

Side Event of the

21st Committee for the Review of the Implementation of the UNCCD (CRIC21):

Upgrading LDN implementation through Recarbonization of Soils (RECSOIL)

13 November 2023 Conference room: MET - 10

13:00-13:30. Opening

13:00 - 13:10. Remarks by **Dr Calvin James** (Executive Director of the Partnership Initiative for Sustainable Land Management for Caribbean SIDS)

13:10 - 13:30. Setting the Scene by **Dr Vera Boerger** (Land and Water Officer, FAO): Soil Recarbonization for the implementation of the UNCCD and synergies with the other Rio Conventions

13:30 - 14:20. Technical panel

- **Soil organic carbon: a strategic element for the vision and mission of the 4P1000 initiative** (Jean Luc Chotte and Paul Luu, 4per1000, French National Research Institute for Sustainable Development IRD)
- **Soil recarbonization potential in Land Degradation Neutrality reporting process: the experience from Colombia.** (Ingrid Teich, Land Degradation Neutrality Consultant, FAO and WOCAT).
- **Soil carbon sequestration potential maps within land planning towards Land Degradation Neutrality: an application in Türkiye** (Zehra Kaya Topaçlı, Ministry of Environment, Urbanization and Climate Change; General Directorate of Combat Desertification and Erosion, Türkiye)
- **Improving Soil Information for soil health based LDN in the Caribbean** (Joseph S. Noel, UNCCD focal point, Ministry of Agriculture and Lands, Fisheries and Cooperatives, Grenada)
- **Upscaling soil health: recarbonizing soils through the Soil Doctors program in the CACILM2 project** (Muhammadjon Kosimov, CACILM2 Project Manager)

14:20 – 14:50 Discussion and Q&A Moderated by **Dr Hernan Gonzalez** (FAO-OCB)

14:50 – 15:00 Closing

The Global Soil Partnership (GSP) is a globally recognized mechanism established in 2012. Our mission is to position soils in the Global Agenda through collective action. Our key objectives are to promote Sustainable Soil Management (SSM) and improve soil governance to guarantee healthy and productive soils, and support the provision of essential ecosystem services towards food security and improved nutrition, climate change adaptation and mitigation, and sustainable development.
